

USED MACHINERY

### Never Used CWP 24" Wide x 0.187" Thick Capacity Servo Feed Line

Nidec Press & Automation Stock #600692

Photos of actual machines

#### System Specifications:

Material Yield Strength: ..... 45,000 psi mild steel  
 Material Finish: ..... Non-Critical  
 Passline Height: ..... As Required  
 Control Platform: ..... 100 fpm  
 Feeder Roll Position Accuracy: ..... 0.002"  
 Max. Feed Length: ..... 999.999"  
 Max. Material Width: ..... 24"  
 Max. Material Thickness: ..... at full width 0.187"  
 Max. Material Thickness: ..... at 6" width 0.250"  
 Min. Material Thickness: ..... 0.021"  
 Roll Diameters:  
 Straightener Rolls: ..... 2.75"  
 Straightener Roll Center Spacing: ..... 3.25"  
 Pinch Rolls: ..... 2.75"  
 Feed Rolls: ..... 4.00"  
 Max. Coil Weight: ..... 25,000 lb  
 Max. Coil O.D.: ..... 60"  
 Max. Coil I.D.: ..... 20.5"  
 Min. Coil I.D.: ..... 15.5"

#### Features (SMXIV 24H Servo Feed):

- Adjustable Mounting Cabinet · Powered Height Adjustment
- Self-centering Edge Guides · Single Point Central Lube
- End of Stock Detector

#### Features (24PTT12 Thread Table)

- Tube Steel Construction · Sheet Steel Threading Surface
- Pneumatic Lift Cylinders · Hand Valve Controls

#### Features (Stock Straightener)

- Angular Head Mounting · Matte Chrome Finish Pinch Rolls
- Heavy Duty Drive · Automatic Central Lubrication System
- Dial Indicators · Self-centering Edge Guides
- Modulating Drive · Model 24-HDP Hold Down Peeler System

#### Features (Stock Reel)

- Hydraulic Expansion · Inching Drive System · Positioning Scale
- Spring Return/Fail Safe Brake

Price, FCA Shipping Point: ..... Price On Request
