## CONTRACT PRESS UPGRADES

---

### P2H Hydraulic Overload

A hydraulic overload valve is attached directly to the slide and is pressure activated immediately relieving the overload. In addition, a switch initializes the stop circuit to help protect expensive dies.

#### Benefits:

- Help protect dies from being damaged in the event of overloading

#### Package Includes:

- Hydraulic tubing, hose and fittings
- Hydraulic overload valve
- Mounting plate

#### Press Lines:

- P2H
