

CONTRACT PRESS UPGRADES

P2H Inching Performance Assist Airbag Package

Ref. Part No. 810-0377

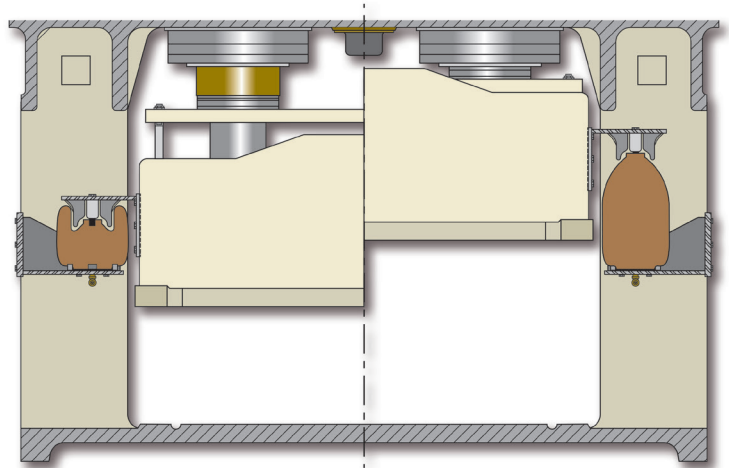

This package adds airbags to the slide to assist with inching during Setup/Auto One cycle. This is especially useful with heavier dies.

Benefits:

- Reduces wear on slide adjust motor and gears.
- Reduces plant air consumption requirements.

Package Includes:

- Airbags
- Upright and slide mounting brackets
- Solenoid and transducer
- Air plumbing parts required for installation
- Installation information

P2H Counterbalance Package

Ref. Part No. 810-0398

This package adds crown mounted counterbalance cylinders to the slide for presses running dies with weights outside the original press scope.

Benefits:

- Reduces clutch slippage with larger dies.

Package Includes:

- Cylinder assemblies
- Air tanks
- Mounting brackets
- All required fittings and air lines
